

Overview:

North Cypress Medical Center is a 139-licensed bed, physician-owned, general acute care hospital, founded by local physicians who wanted to create a sophisticated, upscale, patient-friendly healthcare environment for their community. Our services include the latest, state-of-the-art medical technology and equipment, well-respected area physicians, and an upscale 5-star hotel-like ambience.

Designed with patients and physicians in mind, North Cypress aims to be the hospital of choice for the Northwest corridor.

North Cypress Medical Center provides a comprehensive benefits package for employees and their families. The hospital offers competitive salaries, medical, dental, and vision insurance, as well as disability coverage and an attractive 401(k). Generous paid time off and convenient direct deposits allow employees to make the most of their time. Professional development is also encouraged through educational support and training.

Director Quality/Risk Management:

Facilitates and coordinates hospital wide Quality Review and Risk Management Programs to ensure compliance with TJC, OSHA, CMS and other regulatory requirements to enhance the quality of patient care in a manner consistent with North Cypress Medical Center Policies.

Requirements: Texas RN Licensure, BSN and 3 years in Quality Management/Risk Management in a hospital setting. Excellent communication skills and computer skills required. CPHQ & CPHRM preferred but not required.
